Description

Tradition goes Future is the conference motto in Regensburg, as the UNESCO World Heritage city can boast a long conference tradition: from 1663 to 1806, the everlasting Reichstag took place in Regensburg. However, the stories and histories go back almost 2,000 years, so that the right supporting program can certainly be put together for every conference.

You can find a wide range of supporting program ideas, locations and everything you need for your congress at mice-in-regensburg.de
