

In the sky. Over Bavaria.

Unforgettable scenic flights in Business Class ambience

- ✓ Experienced professional pilots
- ✓ Innovative passenger aircraft
- ✓ Customized flight routes
- ✓ 100% CO₂-neutral

OUR CORPORATE PHILOSOPHY. AND WHAT IT MEANS FOR YOU.

„Welcome on board!“

ALPEN AIR warmly welcomes you to what is sure to be an unforgettable experience.

Discover with us the most enchanting spots of the beautiful alpine landscape and the breathtaking mountain world. We have been flying here for decades and know where to find the most beautiful spots to see at any time of the year or day. We have founded the company ALPEN AIR out of our passion to share them with you. An important aspect of this is our aircraft, the Tecnam P2012.

More safety, more comfort, more experience

With this newly developed aircraft, we are able to offer our guests flight experiences on an unprecedented level. With the comfortable single seats, the large panoramic windows and the communication via high-quality headsets, we achieve an unparalleled standard of quality that is unrivalled in the industry. The ultra-modern aircraft has safety systems that can only be found in commercial aircraft.

We make your dreams come true

In addition to the routes we have devised, we are also happy to customise special itineraries just for you. Would you like to fly over your hometown or your company, take off from a different airport, get married on “cloud nine”, celebrate a birthday with your friends in lofty heights? Are you looking for a special highlight for an event and would like to treat your best employees to a special reward? Talk to us, we’re happy to make almost anything possible.

By the way: because nature is close to our hearts, we compensate all of our Co₂-emissions through quality-assured projects run by our partner First Climate.

So you can look forward to a wonderful experience with a clear conscience: Flying – only more beautiful.

Best regards

Simon Ambrosius

Moritz Reuter

„... A super nice and competent crew, who gave us all of their time and explained everything so patiently. Best rating and recommendation!“
RALF P. ★★★★★

Flying - only more beautiful.
With experienced pilots who love their home country. In the most modern twin-engine propeller aircraft in the world.

SIMON AMBROSIUS

Founder and Managing Director
Commercial pilot with over 20 years of experience

„ Communicating my love of the mountains and nature to other people is also a priority for me in my twin passions of flying and working as a ski guide. Being able to experience the world from close up, inspires me anew every time I fly.“

MORITZ REUTER

Founder and Managing Director
Commercial pilot with over 20 years of experience

„After my first flight at the age of five I got off the plane and said to my parents, „I’d like to do that every day for the rest of my life!“ Nothing has changed – only that my enthusiasm for flying still grows with every flight I take.“

„The two pilots, Simon Ambrosius and Moritz Reuter, flew us with great confidence and in a highly professional way. You can see their love of flying and the fun the job gives them...“

CHRISTIAN M. ★★★★★

„Pilot Moritz Reuter was not only very nice and professional, but also knew the whole area like the back of his hand.“

MATTHIAS G. ★★★★★

FROM GENTLE TO BREATHTAKING PERSPECTIVES

With ALPEN AIR you fly in Business Class ambience

Flying is most fascinating when you hover over the world at a relatively low altitude and low speed. This is perfectly possible with our Tecnam P2012, the world's most modern aircraft in its class. Take your seat in ergonomically optimised single seats with plenty of legroom and right next to a large panorama window - we only have window seats!

Due to the overhead wings, you have a wide view from every seat. And if you want to see even more: the co-pilot's seat can also be booked on many flights.

Receive interesting details and interesting facts about the attractions flown over via our BOSE headsets. On request also in English and other languages. Or simply switch off and enjoy the silence above the clouds.

„This is flying at its best!“
KLAUS B. ★★★★★

“As for the flight itself, I'd say it was one of the best experiences I've ever done. Highly recommend. It's so worth it.”
ALANNA R. ★★★★★

„You could listen to the entire communication during the flight with your own headphones. Everything you could possibly be interested in about the area being flown over. Such a state-of-the-art aircraft we were flying in!“
STEFFI S. ★★★★★

The Tecnam P2012: The most beautiful and comfortable propeller aircraft in the world.

Best view, highest safety: the TECNAM P2012

- ✓ Guaranteed window seat with high-quality BOSE headset
- ✓ Extra large windows for excellent visibility
- ✓ Super comfortable leather seats with plenty of legroom
- ✓ Most modern, comfortable and fuel-efficient aircraft in its class
- ✓ Highest safety standards far above the prescribed guidelines
- ✓ Maintenance undertaken in an aviation authority and manufacturer certified facility
- ✓ Two 375 hp state-of-the-art engines
- ✓ Energy consumption around 30% lower than comparable aircraft

By the way:

Only experienced professional pilots fly with ALPEN AIR, in accordance with the standards applicable to European airlines.

Every six months, all our pilots are required to undergo thorough medical check-ups and check flights.

FASCINATING SIGHTSEEING AND SCENIC FLIGHTS

Bavaria from its most heavenly side

Discover mountains, lakes, castles and the top spots of our pilots from the eagle's perspective. The Bavarian Alps are our home. Here we have been in the air for decades and can therefore promise you truly unique experiences. Our sightseeing flights will not only show you the classic sights, we also present lesser known highlights and our personal dream views.

We fly lower and slower than you are used to from commercial aircraft, so that you don't miss anything worth seeing. Our pilots will always provide background information and tips on where to see something special. On request the commentary can also be provided in English and other languages.

„In mid-August, we took Alpenair on a magnificent scenic flight over Munich, Mount Zugspitze and Neuschwanstein Castle. Despite the time of the day, there was hardly any turbulence during the flight.“

THOMAS E. ★★★★★

„Simply WOW!!! Spectacular flight route, super explanations and great service all round.“ **J. & C. Z. ★★★★★**

„Munich from above is a dream. The pilots were very friendly and helpful. A great new aircraft. We had an unforgettable experience.“ **DIANA S. ★★★★★**

„We were able to enjoy an unforgettable sightseeing flight as part of a gift with Alpen Air! The route was individually adapted to our wishes and had so many highlights.“

MAJA R. ★★★★★

„This week we had a great round trip with Alpen Air from Augsburg. It was a special sightseeing flight for our group, the pilots organised and carried out everything perfectly.“

STEPHAN P. ★★★★★

„The pilot told our children all about flying before the flight – they couldn’t have been more enthusiastic! It was a mega nice day for all of us and we felt very safe at all times!“

THORSTEN H. ★★★★★

✓ Customized arrangements

Whether private group experience, incentive package, integration into events or location for film productions – contact us, we can make almost anything happen.

✓ Comfortable arrival

On request shuttle service e.g. from Munich to Augsburg and back.

✓ No parking stress

Free parking directly in front of the airport building.

✓ No waiting times

Fast and uncomplicated – so that with us you can experience only the beauty of flying.

„We had a super great sightseeing flight with Alpen Air from Augsburg, which we enjoyed very much thanks to the large windows and comfortable seats. I can only recommend this experience to everyone who wants to experience the foothills of the Alps from above! Many thanks to the whole team“

FLORIAN S. ★★★★★

Measures for your safety

- ✓ State-of-the-art aircraft with all current safety features
- ✓ Official Operating Licence/Air Operator Certificate (AOC DE.BY. AOC.316)
- ✓ Strict safety standards and maintenance intervals
- ✓ Experienced professional pilots with intensive additional training and regular check-ups

Guaranteed CO₂-neutral flying

- ✓ Very low consumption thanks to modern engines.
- ✓ All CO₂-emissions are offset by projects of our partner First Climate. For example, we offset CO₂ through reforestation projects in Panama. In Cambodia, we support the distribution of water filters, so that water no longer needs to be CO₂-intensive boiling for drinking.
- ✓ Active participation in the testing of alternative fuels as part of a European research project. Our medium-term goal is to be the first airline in Europe to use exclusively climate-neutral fuel.

Ready for heavenly experience?

We look forward to welcoming you on board!
